The premium, including the insurance tax of 19 %, is due before forwarding the goods to the exhibition venue, at the latest 14 days before the beginning of the trade fair, and should be paid to Zurich Gruppe Deutschland, Zurich Versicherung Aktiengesellschaft (Deutschland), Köln, Commerzbank Köln (bank code: 370 400 44), account no.: 3 003 043, together with the name of the trade fair in question. The premium may otherwise, in exceptional cases, also be paid by credit card at our trade fair stand on the day before the beginning of the trade fair.

Invoices which arrive later are due immediately. If the premium has not been paid when the trade fair begins, the insurance does not come into force.

We will submit any alterations to the sums insured as well as to the premium distribution at the insurance desk on the trade fair grounds at the latest on the first day of the event.

Conditions for trade fair insurances

Zürich Versicherung AG in Cologne hereby insures the exhibitors at the trade fairs and exhibitions which are organized by Koelnmesse GmbH (hereinafter referred to in brief as Koelnmesse) on the basis of the submitted insurance applications in each case.

The basis for the contract is formed by the "General Conditions of Insurance for Exhibition Insurance" – hereinafter referred to in brief as AVB for Exhibition.

"Terms of goods insurance (ADS goods 2000), full coverage"

"Terms of goods insurance 2000 (ADS goods 2000), war clause" (if requested)

"Terms of goods insurance 2000 (ADS goods 2000), strike and riot clause"

"Written conditions that have preference over the printed conditions in the case of deviation"

The insurance covers all risks in accordance with the above-mentioned conditions during transportation by all usual means of transportation from the former place of keeping to the trade fair grounds in Cologne, during the stay on the trade fair grounds (installation, exhibition, dismantling) and during the return transportation after the event has ended. In particular, damage and losses in respect of the insured goods

are deemed to be insured, whereby the damage and losses have arisen by: accident involving the means of transportation, acts of God,

mains water, fire, lightning, explosion, burglary, theft, loss arising from goods going missing and damage. Glass, porcelain, ceramic and similarly very fragile objects are also insured against simple breakage only on payment of a corresponding supplementary premium.

"Terms of goods insurance 2000 (ADS goods 2000), strike and riot clause"

The hazards listed in the war clause of the terms of goods insurance 2000 (ADS goods 2000) can on request be co-insured for a surcharge in accordance with the valid daily rates.

Non-insured risks

As a supplement to § 2 of the AVB for Exhibitions, the following losses and risks are excluded from insurance protection:

- Loss arising from breakage as a result of the absence of or deficiencies in customary packaging or as a result of manufacturing or material faults. Cracks in polish and adhesive solutions, unless this damage arises as a result of a loss covered elsewhere. Consumer goods, foods, tobacco goods and advertising material which are intended for use or for distribution or for sale during the trade fair or exhibition are not insured against loss arising from simple theft or from their going missing during the period of the event.
- Losses arising from weather conditions are insured in the case of exhibitions in tents and in the open air. Losses arising from storms may also be insured on application for a premium supplement which is to be agreed on a case-to-case basis. A weather-induced air movement of at least wind strength 8 is deemed to be a storm.

Disclaimer for biochemical and nuclear energy

- The following hazards are not included in the insurance cover:
 - Those resulting from the use of chemical, biological or biochemical substances or electromagnetic waves as weapons, regardless of other contributory causes.
 - Nuclear energy or other ionizing rays. Damages to insured objects are, however, insured if they resulted from radioactive isotopes (excluding nuclear fuel), insofar as such isotopes are supplied, transported, stored or used for commercial, agricultural, medical, scientific or other peaceful purposes.

This clause remains valid in the case of the revocation of all other agreements in the contract, and as such overrides them. Should the insurance be based on British or other foreign terms of insurance, the INSTITUTE RADIOACTIVE CONTAMINATION, CHEMICAL, BIOLOGICAL, BIOCHEMICAL AND ELECTROMAGNETIC WEAPONS EXCLUSION CLAUSE (CL 730) is valid.

Conditions in respect of Point 2b

Demonstration devices, computers, laptops, TVs and videos are insured against theft outside the official visiting hours only if they are appropriately secured or locked to/inside the stand equipment or if they are secured against unlawful removal in a room locked from all sides. In particular, projectors, laptops and plasma/flat screens must be sufficiently secured by means of a steel wire with a lock or similar.

Period of the insurance

As a supplement to § 3 of the AVB for Exhibitions, the following is deemed to be agreed: After the termination of the official dismantling period in accordance with the conditions of participation of Koelnmesse to the beginning of the return transportation, there is insurance protection within the framework of the policy conditions only if the insured goods are located either in locked storerooms or, alternatively, are constantly supervised by the insured party, by his employees or by other trustworthy persons.

If this obligation is violated, insurance protection for the following insurance period (in particular, for the return transportation) does not apply also for losses arising from theft and goods going missing.

Insurance value

Unless agreed otherwise, the value of the insured goods at the place of departure is deemed to be the insurance value. The sum insured must correspond to this insurance value.

Third-party insurance

Insurance protection applies in accordance with the General Conditions of Insurance for third-party insurance with liability coverage of 1,540,000 EUR in the event of personal injury, 520,000 EUR in the event of material loss.

Assessment of loss

Written notification to Zurich Gruppe Deutschland, Zurich Versicherung Aktiengesellschaft (Deutschland), Service-Center Köln, GIA-SCK-FT-TR, Worringer Str. 11–13, 50657 Köln, Germany, is always necessary in all cases of loss. In addition, all losses which are likely to exceed 300 EUR should be notified by telephone, using the collective call numbers +49 172 2929299 and / or +49 221 77156292. A list of all the exhibition goods with an indication of their individual values should be appended to every notification of loss.

Cases of theft must be reported to the police or the investigation authorities commissioned by Koelnmesse immediately after discovery. Theft damages at the exhibition centre can be recognized only if they are reported before the affected party has left the exhibition centre for the last time. In the case of transport damage, the transport company (railway operator or shipping company) must be involved in ascertaining the damage, even if the damage is not discovered until the item in question is unpacked (company negotiations).

Witnesses should be named in the event of third-party losses.

In addition, on the last day of the event, Zürich employees are available at the central information offices of the Rheinhalle and of the Osthalle for accepting notification of losses or for other issues.

Miscellaneous
